To grow as a backend developer, I am improving myself in .NET Core technologies. Currently, I am developing with Asp.NET Core MVC, Entity Framework, Identity Framework, and MSSQL. I document the topics I learn/research as articles on the Medium platform."

EXPERIENCE

Bimser Synergy - Intern   07/2024 - 08/2024

- Developed a Supply Tracking System project on a Low-Code platform.
- Utilized C#, TypeScript, and MS SQL for development.
- Worked in Synergy department, gaining experience in Low-Code methodologies.

PROJECTS

Restaurant Management System   11/2024 - 12/2024

Restaurant Stock, Order, and Employee Management System
- Developed a restaurant management system using ASP.NET Core MVC and Entity Framework.
- Designed a custom user interface for order processing.
- Contributed to class structure design and frontend development within a team environment.

Full-Stack Development | ASP.NET Core MVC | EF Core   02/2025 - Present

I developed a user-interactive blog platform: Post/comment system, donation integration, like/save features.
Technical Solutions:
- Identity management with ASP.NET Identity and SMTP-based email/password verification
- MSSQL relational modeling + EF Core optimization (soft delete, pagination, AsSplitQuery)

EDUCATION

Duzce University   **Bachelor of Science in Computer Engineering**

2021-2026   GPA: 3.49 / 4.00

SKILLS

Asp.Net Core MVC
Entity Framework Core
Identity API
MSSQL
HTML,CSS, Javascript
MS Office(Word, Excel, PowerPoint)

LANGUAGE

Turkish - Native Speaker

English - Upper Intermediate

HOBBIES & INTERESTS

Basketball

Football
